Subject: Comment for 9/8/26 City Council meeting
Date: Tuesday, September 8, 2026 2:01:27 PM

Hello, all.

My name is Kaitlyn McCarron, I am a long time Malden resident who is very proud of all the things our community does to help each other thrive. I am writing in connection to tonight's docket items regarding inclusionary zoning and Flock cameras.

Flock Cameras (369-26):

I am in support of a full ban on Flock Cameras and similar cameras from other brands. They are an invasion of privacy, and we cannot trust a private company to delete stored data when they say they will. There is far too much potential for abuse.

Inclusionary Zoning (335-26):

I am strongly in support of changes to the zoning code. As a volunteer with the Malden Warming Center I have seen firsthand the effects of our current housing crisis. More housing is the only way to relieve this, and the current zoning code does not allow for sufficient construction to address the need. As a commuter city with a strong walk score and robust public transit, parking minimums are an unnecessary hurdle to affordable housing. I appreciate the hard work that has been done already on this front and hope this review will continue to move Malden in the right direction.

Thank you,

Kaitlyn McCarron
