Subject: Public comment: Sept 8 City council meeting - In support of CCP 369 & 335
Date: Tuesday, September 8, 2026 2:56:13 PM

Dear city council members,

First, I'm in support of Paper 369 and the review of Malden's use of Flock cameras. Flock cameras should not be used in the tracking of the Malden public. Those cameras have been reported to be misused by law enforcement nationally to track and harass individuals as well as by ICE to target minorities. They have no place in our community.

Secondly, I'm in support of Paper 335 and the inclusionary zoning update. There is a huge lack of housing in the Boston area, so encouragement to build more housing is a good thing. I also hope this passes so that parking minimums are cut down. We should be striving to make our community more walkable and accessible to other modes of transportation. Adding density and not taking up space with parking is a great step in that direction.

Thank you for your attention,
Charles McNaughton
Ward 8
192 Kennedy Dr.
