Hi,

My name is Matt Tong, I am a resident of Ward 3 on Desmond Rd. I would like to submit two comments regarding Flock Cameras and the Inclusionary Zoning agenda items tonight.

Flock Cameras (369-26):

I am in support of a full ban on Flock Cameras and similar offerings by other companies. Evidence both locally and nationally shows this surveillance is being abused in ways that differ sharply from their intended safety uses. Without better guardrails, these are actively harmful, and I am dubious sufficient guardrails can be devised in the immediate future given the temptations to overreach with this sort of information.

Inclusionary Zoning (335-26):

I am in support of these changes to the zoning code, especially regarding parking minimums. We need to do more to build housing and keep Malden a livable place.

- Matt
